Keys to Adolescent Literacy Session I: A Data-Driven Approach to Reading Intervention

Live Virtual Professional Development

Virtual-Live Format: The Keys trainer will use Zoom video conferencing to deliver this training in an interactive format using features such as breakout rooms and chat.

Grounded in more than 20 years of experience and the latest research on effective adolescent literacy instruction, *Keys to Adolescent Literacy* provides powerful professional learning designed to enhance student literacy achievement incorporating Joan Sedita's *The Essentials of Adolescent Literacy* book.

This session provides an overview of literacy assessments and demonstrates how assessment data can inform instructional decisions to support student learning.

This session is particularly valuable for intervention educators and literacy leaders who seek a foundational understanding of literacy assessment in grades 5–12. It is also appropriate for Grades 5 and 6 classroom teachers who administer and analyze literacy assessment data. Participants learn about the different types of assessment (screening, diagnostic, progress monitoring, and summative), along with a model for using progress monitoring assessments throughout the school year for students receiving intervention instruction. Additionally, the session will cover how to utilize reading assessment data to inform instructional decisions at the student, classroom, grade, and school levels.

Session Topics Include:

- Assessment and MTSS
- A Secondary Literacy Instruction Model
- A Grades 5-12 Screening and Diagnostic Assessment Model
- Assessment Types and Terminology
- Analyzing Assessment Data
- Matching Students to Interventions

A copy of the *Essentials of Adolescent Literacy* training book is required for this session and is not included in the registration fee. The book can be purchased on the [Keys to Literacy website](#).

Connecting This Session to Keys to Literacy's Comprehensive Professional Learning Suite: This session can stand alone as an overview of reading assessment and use of data in grades 5-12. It complements and pairs well with Session H, "Supporting Adolescents With Literacy Difficulties."

Who Should Participate

This course is appropriate for classroom teachers in grades 5-12, special education and intervention educators, literacy coaches, and administrators—ensuring consistent literacy instruction across your district.
